Minimum spend amount to start Flexi Points is £300	

Season Ticket costs 2021-22

Because of the potential for future lockdowns, or restrictions in playing golf, due to COVID-19, Season Tickets will be made available from 1 May for an 8-month period to 31 December only. This way if there is a further lockdown we can extend the valid for use period into 2022.

If there is no further lockdown, a three-month extended season ticket will be made available to cover the period January to March 2022.

Adult 7 Day The price is based on a full year cost of **£1,100**.

The 8-month cost will be **£800**, which is equivalent to **£100.00** per month, and should we be able to extend into 2022, the 3-month extension will be **£225**, which is equivalent to **£75** per month.

Therefore, over the initial 8-month period the cost of playing just once per week would be just £23.52. If you played twice per week, the average cost per round would drop to £11.76 per round!

Senior 7 Day The price is based on a full year cost of **£1,000**.

The 8-month cost will be **£720**, which is equivalent to **£90.00** per month, and should we be able to extend into 2022, the 3-month extension will be **£210**, which is equivalent to **£70** per month.

Therefore, over the initial 8-month period the cost of playing just once per week would be just £21.18. If you played twice per week, the average cost per round would drop to £10.59 per round!

Adult 5 Day The price is based on a full year cost of **£900**.

The 8-month cost will be **£640**, which is equivalent to **£80.00** per month, and should we be able to extend into 2022, the 3-month extension will be **£195**, which is equivalent to **£65** per month.

Therefore, over the initial 8-month period the cost of playing just once per week would be just £18.82. If you played twice per week, the average cost per round would drop to £9.41 per round!

Senior 5 Day The price is based on a full year cost of **£800**.

The 8-month cost will be **£560**, which is equivalent to **£70.00** per month, and should we be able to extend into 2022, the 3-month extension will be **£180**, which is equivalent to **£60** per month.

Therefore, over the initial 8-month period the cost of playing just once per week during the week would be just £16.47. If you played twice per week, the average cost per round would drop to £8.23 per round!

PLEASE NOTE:

The cost per month over the initial 8-month period is higher per month than the remaining 3 months, as there is more opportunity to play during the summer and autumn months, due to longer daylight hours. If we are able to offer a Season Ticket for the period January to March 2022, it will only be available to persons who took out the initial 8-month season ticket. Please note that direct debit is not available this year, however, this is planned to be available for April 2022.
